

The Somerset Herald.

EDWARD SCULL, Editor and Proprietor.

WEDNESDAY, FEBRUARY 2, 1886.

The Senate is now inquiring of the Administration why it stabled certain government officials in the back.

Reports from the west say that the snow has fully protected the wheat over almost the entire grain growing belt on which it is raised.

A painful rumor comes from New York that Ex-President Arthur is seriously ill and that his personal friends are much alarmed about his condition.

They have "local option" in North Carolina, and have closed all the bar-rooms in the State except 555, of which three hundred are located in the city of Charleston.

There is a bill before the Iowa Legislature which proposes to make drunkenness a crime. That is right. No man has a right to make a hog or a fend of himself and escape punishment under the plea that "he was drunk."

Ex-Vice President and ex-U. S. Senator Hannibal Hamlin is now seventy-nine years old, and boasts that he can run faster and jump higher than any young man in his neighborhood. He has had three wives who were sisters; the last and youngest is now living with him in Bangor, Maine.

Every now and then, some of the journals of this State introduce the subject of who shall be the next U. S. Senator. But, as a general rule, the Republicans recognize the wisdom of letting the subject rest until we have carried the next election and secured the Legislature. First catch your hare, before you cook it.

The breaking up and gorging of the ice in the Susquehanna, Delaware and Lehigh rivers and other minor streams in the eastern part of the State, has caused much loss of property within the past few days.

In the Allegheny and Monongahela and their tributaries the ice has nearly all run out without any casualties as far as heard from.

Government experts estimate that the farmers of the United States raised last year two billion bushels of corn, 620,000,000 bushels of wheat, and 357,000,000 bushels of oats. There is not much danger of immediate starvation with this liberal supply of food for both man and beast. The market value of the three crops is set down at one billion dollars.

Another Chinese riot took place at Seattle, Washington Territory, on Monday last week. The militia was called out to guard the Chinese and was compelled to fire on the mob, killing one and wounding several others. The Governor had to place the city under martial law, and on an appeal to the President troops were forwarded and now preserve the peace.

It appears to be generally conceded that General Beaver will be the next Republican candidate for Governor, but a number of aspiring gentlemen are anxious to be placed on the ticket with him. It strikes us, as but a matter of common fairness, that the candidates who went down in the general wreck caused by the family quarrel in 1882, are equally entitled to a re-nomination, if they desire it.

It now looks as if the strike in the coke regions had settled down to a mere question of endurance on both sides. The operators have shut down all their ovens, and declare they will not start them up again until the old prices for labor are accepted, and the men have apparently determined also to face it out.

An Entertaining Bigamist. PETERSBURG, Feb. 10.—Detective Henry Korman arrived here yesterday with Charles Hives, alias Charles Badger, alias S. J. Randall, charged with embezzlement by Carwright & Stevenson, hardware dealers of Allegheny City, by whom he had been employed as traveling salesman for some years. Hives has a wife and six children. He was next traced to Harnersville, where, under the name of Charles Badger, he had married several years and had three children. At Brookville, Jefferson county, was a woman who also passed for his wife.

Death of Hon. Horatio Seymour. URICA, N. Y., Feb. 13.—Ex-Governor Seymour died at 10 o'clock last night at his residence in this place. He was 82 years of age. He was a true patriot, a faithful servant of his country, spotless and pure in every relation of life, a nation mourns at his death, and will cherish his memory for ages.

DEATH has been active within the last year among the prominent Democrats of the country. Thomas A. Hendricks, George B. McClellan, Winfield Scott Hancock, and Horatio Seymour have all within the space of a few months passed from earth to eternity. Horatio Seymour, the last of these prominent men, died on Friday last. As Governor of New York and a candidate for President, Mr. Seymour had occupied a large space in the public eye and had attracted much public attention.

Hancock's Funeral.

Orders for the Ceremonies on Saturday—Services at Trinity Church.

Remains of Major-General Winfield Scott Hancock Consigned to the Tomb.

New York, Feb. 11.—The remains of General Hancock were taken from the bier this afternoon and placed in the steel casket ordered by his relatives. Dressed in the uniform of a major general, the military honors were observed, and the casket was placed in the hands of the military hearse.

We call the attention of the Collectors of taxes who were elected yesterday to the provisions of the second section of the law, by virtue of which they were elected. It is as follows:

"Section 2. The courts of Quarter Sessions shall have power to fill, by appointment, all vacancies in the said offices, within their respective counties. And if any person elected to any such office shall die, or be unable to qualify as such officer, or shall be removed from office, or shall be absent from office for more than thirty days, the court may fill such vacancy, and appoint a suitable person, to fill the same, for the term for which the said officer was elected, or for such shorter term as the court may think proper."

As the next term of the Court of Quarter Sessions for this county commences on Monday the 22d day of this month, it will be necessary that all Collectors shall file their official bond on or before Thursday the 25th inst., else the Court will be compelled to declare the office vacant, and appoint a suitable person to fill the same. The bond required must be in double the probable amount of all taxes that will come into the Collector's hands, with at least two sufficient sureties conditioned that he "shall well and truly collect and pay over and account for, according to law, the whole amount of the taxes charged in the duplicates delivered to him."

The President desired to attend the funeral, but it will be impossible for him to do so. The body of the late General Hancock, who will act as a pall-bearer; Secretary Edgerton, and possibly one or two others. Secretary Whitney will not be able to attend, but will detail a number of officers to represent the army. The New York Commandant of the Army of the Potomac will be represented by Colonel Kilian, Lieutenant Van Rensselaer, Major Iver Taylor, Lieutenant Fordham Morris, Medical Director Charles Martin, Colonel S. B. Lawrence and Captains Samuel Treadwell and W. F. Van Rensselaer. The Department of the Missouri will be represented by Major-General Schofield and Lieutenant Pitzer.

REMAINS OF MAJ-GEN. HANCOCK CONSIGNED TO THE TOMB.

New York, Feb. 11.—No long lines of troops, no sound of dirges, no trappings of war marked the funeral of Gen. Hancock. The man who had received the nomination of a general in the highest honor in the Nation's gift, he who had turned the fortunes of many a battle and whose calm courage in the midst of death had so often inspired the faltering regiments, was laid to rest quietly, without pomp or vain show. Yesterday, wherever the morning sun shined the stars in his name and face were on the lips of soldiers, and a few devoted friends gathered before a tomb on a windswept hillside at Norristown, and heard a blue-coated bugle sound the funeral march.

On reaching the cemetery at Norristown, Secretary of State Bayard walked with the head of the column, and the funeral procession followed. While Gen. Sherman led the file on the opposite side, with Secretary of War Edgerton next to him. Gen. Sheridan was next behind Mr. Bayard. There was no pause at the entrance of the tomb, the regulars carrying the casket directly inside, where they rolled it into a niche that was waiting. As the body passed through the gateway of the tomb the first of three salutes was fired from the hillside by Light Battery F, of Fort Hamilton. Then came forward a blue-coated messenger, bearing a note to the General's wife, who bore two wreaths of white marigolds. Upon one in purple immortelles, the other in white and blue.

The upper right niche was opened, and upon the casket of the General's remains the casket directly inside, where they rolled it into a niche that was waiting. As the body passed through the gateway of the tomb the first of three salutes was fired from the hillside by Light Battery F, of Fort Hamilton. Then came forward a blue-coated messenger, bearing a note to the General's wife, who bore two wreaths of white marigolds. Upon one in purple immortelles, the other in white and blue.

As the regulars withdrew from the sepulcher, a lighter came out from the ranks, and the casket was rolled into a niche that was waiting. As the body passed through the gateway of the tomb the first of three salutes was fired from the hillside by Light Battery F, of Fort Hamilton. Then came forward a blue-coated messenger, bearing a note to the General's wife, who bore two wreaths of white marigolds. Upon one in purple immortelles, the other in white and blue.

Febrary Floods.

The Delaware a Raging Torrent at Trenton.

HUNDREDS OF PEOPLE HOMELESS.

Trenton, N. J., Feb. 11.—The river here has risen to a level with its banks everywhere and overflowed the whole lower part of the city. In Warren Street, which the water scarcely ever reaches, the flood is now two feet deep. Dwellings, mills and factories are flooded and great damage is already done. The tracks of the Pennsylvania Railroad are under water and all trains have stopped running. Hundreds of people are driven from their homes, the water in some cases being so high that boats are used. Much stock has been drowned here and in the surrounding country. Charles Aldrich, going into his cellar to save some property, was caught by the water and imprisoned. He was nearly drowned before being rescued. The water is still rising, and the damage is already done. The great freshet here in thirty years.

MIDNIGHT.—The river is still rising and rain falling. The Pennsylvania Railroad Station is surrounded by a rushing torrent and great feet deep. Locomotives have been run on all the bridges to keep them from floating off. All the available men are at work saving the movable property of the company. There is no prospect of trains being able to pass through the city at the next twenty-four hours at least.

THE SUSQUEHANNA UP. Port Deposit, Md., Feb. 11.—The heavy rain of to-day and last night caused a rapid rise in the Susquehanna River, and the water tonight is as high as at any time this winter. The lower portion of the town is flooded, and many dwellers along the river front were compelled to abandon their homes and seek refuge on the high ground. The body of the ice in the river remains unbroken, and it is almost impossible for the heavy volume of water to make its escape into the bay. Grave apprehensions are again entertained, and a strict watch is being kept to-night. Advice is given to the farmers to be on hand, and unless the ice gives way sufficiently to make an outlet for the water, a disastrous flood is looked for.

About 10 o'clock the body of ice opposite Rock Run made a break and ran rapidly over the high ground. The body of the ice in the river remains unbroken, and it is almost impossible for the heavy volume of water to make its escape into the bay. Grave apprehensions are again entertained, and a strict watch is being kept to-night. Advice is given to the farmers to be on hand, and unless the ice gives way sufficiently to make an outlet for the water, a disastrous flood is looked for.

A Friendly Crime.

MATTONS, Ill., Feb. 13.—Miss Georgia Aldrich narrowly escaped being murdered by her brother, who was party to a murder, two miles west of this place last night. In friendliness, the attempted crime has equal only in the noted Emma Bond case. Miss Georgia, who is a daughter of Dr. Aldrich, was alone in the house at 10 o'clock, and stepping out of a window, she fell, her hands and feet tied, and then hung up by a rope, which was placed around her neck. She was accidentally discovered before she was killed by her brother, who by chance came in the house from the barn. He then rushed to the window, and stepping out of a window, she fell, her hands and feet tied, and then hung up by a rope, which was placed around her neck. She was accidentally discovered before she was killed by her brother, who by chance came in the house from the barn.

Telling How she was Hung to a Tree.

Dying of a Mad Male's Bite.

Sheriff's Sale.

ATLANTA, Feb. 9.—John O'Neil, a planter of Fulton county, is dying of hydrophobia. He was bitten by a mad mule, which was shot on Sunday. The mule had been bitten by a mad dog three weeks before. On Friday Mr. O'Neil went into his barn yard. The mule was standing still. When Mr. O'Neil was within a few feet of the animal, it suddenly sprang forward with its mouth wide open. Mr. O'Neil started to run, but before he had taken a half dozen steps the mule had him under his feet, and began biting Mr. O'Neil. He grabbed his hat in the leg and then in the body. Mr. O'Neil screamed for help, and persons who were near by ran to his assistance. The mule did not move at first, and a liberal use of the stick was necessary to drive the beast away.

Guarding Hancock's Tomb. Nonarrest, Feb. 14.—Notwithstanding the slush and mud in the lane leading to Montgomery Cemetery, hundreds of people to-day visited the tomb where were disposed yesterday the remains of Gen. Hancock. The substantial granite front and heavy galvanized iron gate, impressed the visitor with the outward security. But on looking through the narrow opening above the door it was seen that the rich contents of the General's remains had been securely sealed. The sealing was substantially done this morning by Henry C. Cressman, who built the last. Last night the tomb was guarded by persons specially employed by B. E. Chain, the family's intimate friend, and will be securely guarded for some time.

A Lady Buried With Military Honors. HARRISBURG, Feb. 10.—The widow of Colonel Seneca Simmons, who was killed in the late war, was buried to-day with military honors. At her request one of the Grand Army posts in this city took charge of the funeral. The music rendered while the remains were being conveyed to the railroad, preparatory to removal to Pottsville, was that indicated by her in directions written in a book. Several dirges were rendered with file and tenor drum. No band drum was used, at the request of the deceased.

Forty-Eight Hours Burned. ST. LOUIS, Feb. 11.—John P. Mulhally's livery and sales stables were burned at an early hour this morning. The fire originated in the hayloft. The employees of the stables turned their attention at first to saving the horses, 65 in number, and had taken several of them from the building, when two policemen, thinking that the employees were thieves, clubbed them into insubordination, and thus destroyed the only chance of saving the stock, and the remaining fifty-eight were burned to death. Loss \$12,000, insurance \$3,000.
